**WHAT WALES YOU?**

Do you feel dull, languid, low-spirited, lifeless and insidiously miserable, both physically and mentally; experience a sense of weariness, listlessness, depression of spirits, or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, eyes dimmed, dizziness, frequent headaches, blurred eyesight, floating specks before the eyes, nervous prostration or exhaustion, loss of appetite, temper, hot cheeks alternating with chilly fits, skin cold, biting transient pains here and there, cold, drawling intermissions, wakefulness, or disturbed sleep; or again, a sense of uneasiness, indecisive feeling of dread, or impulsive calamity?

...or still, or any considerable number of these symptoms, are you suffering from that most common of American maladies—catarrh? This is a disease of the liver, spleen, kidneys, lungs, heart, blood, etc., and is accompanied with dyspepsia or indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms you will exhibit if it is not cured.

Dr. Pierce's Golden Medical Discovery
